

# OFFICE OF EXTENDED LEARNING

*Ms. Meg Moore, Director and eMajor CEO  
Odum Library Suite 2621*

Valdosta State University offers programs for learners seeking the on-campus college experience, online students completing their coursework at a distance, and graduate students completing post-secondary coursework. The VSU student body includes many adult, military, and non-traditional learners who are returning to school after a period of absence to advance their careers as well as those who are entering the collegiate classroom for the first time. In addition to academics, VSU offers many not-for-credit programs and courses through Continuing Education. Continuing Education programs offer personal enrichment courses, opportunities for professional development and certification, Learning In Retirement, and numerous summer programs for children in the community.

Established in 2013, the Office of Extended Learning incorporates two VSU units: the Center for eLearning and Continuing Education. The Center for eLearning is responsible for the promotion, development, and service provision of instructional technology for VSU faculty and students. Through this partnership, VSU seeks to create new and innovative programs which benefit not just the individual learner, but our community and our region by stimulating workforce development, enriching the lives and experiences of our neighbors, and which promoting new opportunities for engagement in lifelong learning.

## **CENTER FOR ELEARNING**

The Center for eLearning provides support, training, and instructional design services for faculty teaching in online, hybrid, and technology-enhanced courses using the Valdosta State BlazeVIEW or University System of Georgia collaborative learning management system, GoVIEW. The Center also supports VSU and VSU-collaborative students with troubleshooting support for technology-enhanced courses including Student Response Systems (Clickers), web-conferencing, Turnitin, and other products. The Center provides assistance to faculty and students in USG collaborative initiatives including: eCore (the online core curriculum courses), the collaborative graduate Education programs, and the Georgia WebMBA Program delivered via GoVIEW, and houses the Administrative Unit for the University System of Georgia eMajor Programs. In addition to support, Center staff provide professional development and training opportunities to VSU faculty and administrators, facilitate web- and video-conferencing for academic and administrative events, and offer instructional design consultation and reviews of online and hybrid courses based on Quality Matters national standards.

## **CONTINUING EDUCATION (NON-CREDIT COURSES)**

The Continuing Education Department oversees the non-academic credit programs offered by the University for persons in Valdosta and the surrounding communities. Activities include Learning in Retirement, Children's Programs, Professional Development, and Personal Enrichment Classes. In addition to general classes, Continuing Education develops and presents contract seminars and courses to meet the needs of specific business and industry groups and offers a wide variety of courses and career development certificate programs online. Some courses are developed especially to meet the licensing or certification requirements of specific professional groups requiring continuing education credit.

The Southern Association of Colleges and Schools requires the use of the CEU (Continuing Education Unit) by member institutions and provides this definition: "One continuing education unit is ten contact hours of participation in an organized, continuing education experience under responsible sponsorship, capable direction, and qualified instruction." Continuing Education administers the CEU procedures for the University. The department also manages the Professional Learning Unit (PLU) program approval and crediting procedures for teacher recertification.

# BOARD OF REGENTS STATEMENT ON DISRUPTIVE BEHAVIOR

The following is the policy of the Board of Regents of the University System of Georgia regarding disruptive behavior in any institution of the University System:

The Board of Regents of the University System of Georgia reaffirms its policies to support fully freedom of expression by each member of the academic community and to preserve and protect the rights and freedom of its faculty members and students to engage in debate, discussion, peaceful and nondisruptive protest, and dissent. The following statement relates specifically to the problem described below. It does not change or in any way infringe upon the Board's existing policies and practices in support of freedom of expression and action. Rather, it is considered necessary to combat the ultimate effect of irresponsible disruptive and obstructive actions by students and faculty which tend to destroy academic freedom and institutional structures through which it operates.

In recent years, a new and serious problem has appeared on many university and university campuses in the nation. Some students, faculty members, and others have on occasion engaged in demonstrations, sit-ins, and other activities that have clearly and deliberately interfered with the regular and orderly operation of the institution concerned. Typically, these actions have been the physical occupation of a building or campus area for a protracted period of time or the use or display of verbal or written obscenities involving indecent or disorderly conduct.

These actions have gone beyond all heretofore recognized bounds of meetings for discussion, persuasion, or even protest, in that: (1) acquiescence to demands of the demonstrators is the condition for dispersal, and (2) the reasonable and written directions of institutional officials to disperse have been ignored. Such activities thus have become clearly recognizable as an action of force, operating outside all established channels on the campus, including that of intellectual debate and persuasion which are at the very heart of education.

The Board reaffirms its beliefs that all segments of the academic community are under a strong obligation and have a mutual responsibility to protect the campus community from disorderly, disruptive, or obstructive actions which interfere with academic pursuits of teaching, learning, and other campus activities.

The Board of Regents understands that this policy is consistent with resolutions adopted by the American Association of University Professors in April, 1968, by the Association of American Colleges in January, 1968, and by the Executive Committee of the Association for Higher Education in March, 1968, condemning actions taken to disrupt the operations of institutions of higher education.

The Board of Regents is deeply concerned by this new problem. Under the Constitution of the State of Georgia, under all applicable court rulings, and in keeping with the tradition of higher education in the United States, the Board is ultimately responsible for the orderly operation of the several institutions of the University System and the preservation of academic freedom in these institutions. The Board cannot and will not divest itself of this responsibility.

Of equal or greater importance, such action of force as has been described above destroys the very essence of higher education. This essence is found in the unhampered freedom to study, investigate, write, speak, and debate on any aspect or issue of life. This freedom, which reaches its flowering on university and university campuses, is an essential part of American democracy, comparable to the jury system or the electoral process.

For these reasons and in order to respond directly and specifically to this new problem, the Board of Regents stipulates that any student, faculty member, administrator, or employee, acting individually or in concert with others, who clearly obstruct or disrupt any teaching, research, administrative, disciplinary or other public service activity, or any other activity authorized to be discharged or held on any campus of the University System of Georgia, is considered by the Board to have committed an act of gross irresponsibility and shall be subject to disciplinary procedures, possibly resulting in dismissal or termination of employment.

# UNIVERSITY SYSTEM OF GEORGIA

270 Washington Street, S.W., Atlanta, GA 30334

The University System of Georgia includes all state-operated institutions of higher education in Georgia—four research universities, two regional universities, thirteen senior colleges, and fifteen junior colleges. These thirty-four public institutions are located throughout the state. A constitutional Board of Regents governs the University System, which has been in operation since 1932. Appointments of Board members—five from the state-at-large and one from each of the state’s Congressional Districts—are made by the Governor, subject to confirmation by the State Senate. The regular term of Board members is seven years. The Chancellor, who is not a member of the Board, is the chief executive officer of the Board and the chief administrative officer of the University System. The overall programs and services of the University System are offered through three major components: Instruction, Research, and Public Service and Continuing Education

Instruction consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates. Requirements for admission of students to instructional programs at each institution are determined, pursuant to policies of the Board of Regents, by the institution. The Board establishes minimum academic standards and leaves to each institution the prerogative to establish higher standards. Applications for admission should be addressed in all cases to the institutions.

Research encompasses investigations conducted primarily for discovery and application of knowledge. These investigations, conducted on campuses and at many off-campus locations, cover a large number and a variety of matters related to the educational objectives of the institutions and to general societal needs. Most of the research is conducted through the research universities; however, some of it is conducted through several of the other institutions.

Public Service and Continuing Education consists of non-degree activities, primarily, and special types of university-degree-credit courses. The non-degree activities are of several types, including short courses, seminars, conferences, lectures, and consultative and advisory services, in a large number of areas of interest. Typical university-degree-credit public service/continuing education courses are those offered through extension center programs and teacher education consortia.

The policies of the Board of Regents for the government, management, and control of the University System and the administrative actions of the Chancellor provide autonomy of high degree for each institution. The executive head of each institution is the President, whose election is recommended by the Chancellor and approved by the Board. State appropriations for the University System are requested by, and are made to, the Board of Regents. Allocation of the appropriations is made by the Board.
